EVENTS

STAND4Kids participated in the **European Researchers' Night**, offering interactive activities and raising awareness about paediatric clinical research.

The team also joined the **25th National Paediatrics Congress**, presenting two posters: one highlighting STAND4Kids' work and achievements, and another on the project "Mapping Existing Materials on Paediatric Clinical Research in Portugal".

European Researchers' Night, Lisbon, Portugal - September 26, 2025

25th National Paediatrics Congress, Porto, Portugal - October 29-31, 2025

INVESTIGATOR MEETING

STAND4Kids is proud to be part of the launch of this exciting **paediatric chronic kidney disease (CKD)** study. With our full team engaged, we are committed to helping Boehringer Ingelheim move swiftly through study enrollment toward successful study completion.

NETWORK & STAKEHOLDERS

23rd SHARING SESSION FOR SITES
SAVE THE DATE: 11 December

YPAG LISBOA

YPAG Lisboa is a **Young Persons' Advisory Group** that ensures the perspectives and needs of children and adolescents are integrated into every stage of clinical research.

Their collaboration helps make clinical trials more **accessible, relevant, and suitable** for different age groups, promoting a more **child-centred** approach.

By participating in research projects, YPAG Lisboa contributes to **improving the design, conduct, and social impact of paediatric studies.**

Want to know more about YPAG Lisboa? Contact STAND4Kids!

OPPORTUNITY

Multi-country Investigator-Initiated Clinical Trials in Cardiovascular, Autoimmune and Metabolic diseases - Trials4Health

Portuguese researchers can coordinate proposals or join consortia for investigator-initiated multinational clinical trials on type 1 diabetes.

If you want to know more about this funding opportunity or have any questions, contact STAND4Kids.
